Years from now, we must make time to remember high school. These are said to be the best years of our lives, and we must admit, this phase has a lot of truth to it. High school has been a time to grow... a transition... from children to adults.

These are also very peculiar times—talking, dreaming, trying to make sense of our purpose in this world. We live each day in search of enlightenment, some manifestation that will make everything clear. We are in the process of becoming independent. We don't want to leave the securities we've had all our lives, but the reality is... time goes on.

The days ahead will be hard, as we struggle through decisions that will impact the rest of our lives. We are full of questions. Where do we go from here? What will we become? Only time will tell. We have to look forward to the future, optimistically. At East Side, we've learned many things, both in and out of the classroom. We go with the insight, that these lessons will help us in life, and in the long run, make us better people.

Soon we will part, but the friendships we have made and the times we have shared will be forever cherished. When we go our separate ways, we will always have East Side and each other in our hearts. The hourglass has flipped, marking the end of one experience... and the beginning of a new one.

Presented on November 25th 1908, there was a resolution calling for the construction of East Side High School. The resolution was adopted by the Board of Education.

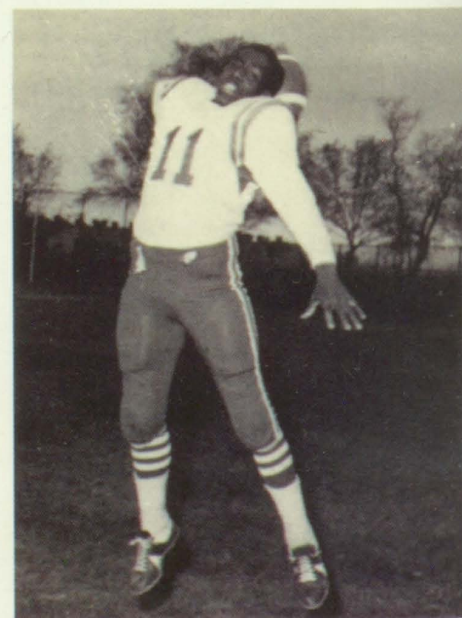

In September of 1910 a competitive exam was held for principalship. The successful candidate was Thomas F. Kennedy of Barringer High School. Mr. Kennedy immediately began to select a faculty.

The school was organized February 1st, 1911. All first year pupils participated at the Market Street Annex. The following April the school moved to the new building with an enrollment of 450 students. The first class graduated from East Side High School in 1914 with 31 graduates.

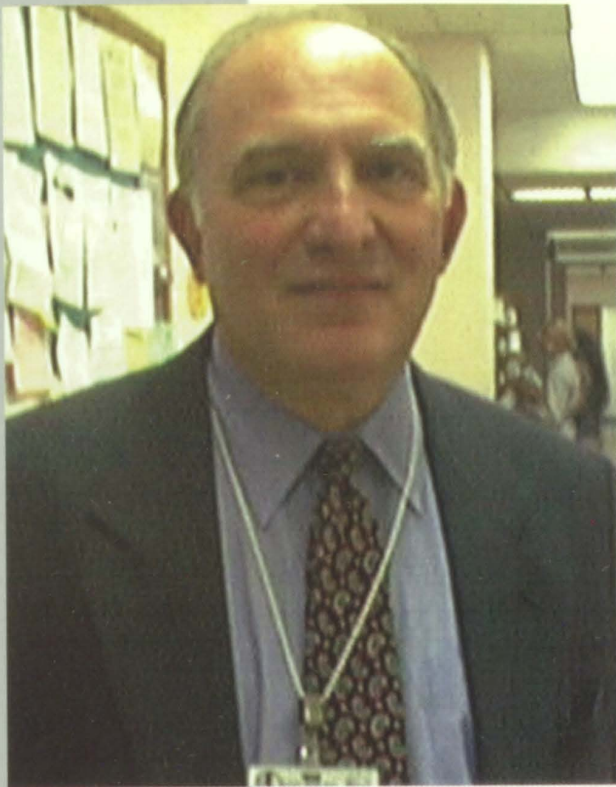

Pictured is principal Henry A. McCracken and Jerome Alexander of 1949. Also we see the former entrance of what is now B building.

Now eighty-five years later, East Side has undergone many changes, from the students and administration, to the addition of "A" new building in 1979.

Our present principal is Dr. Caesar Previdi and our graduating class consists of 356 pupils. We see, covered in mud, a football player for the turn of the century, Quadir Moss and our new front entrance.

In the spring of our Junior year, The 500 Nations Club, The Environmental Club, Aspira Club and those who chose to volunteer their time, went to Branch Brook Park to participate in the Earth Day '98 activities. We planted trees and helped to clean up the many community service projects that throughout our years at East Side.

As the night of May 22, 1998 began the hours of preparation and waiting came to an end. We arrived at Campino's excited to see what would come of our special night.

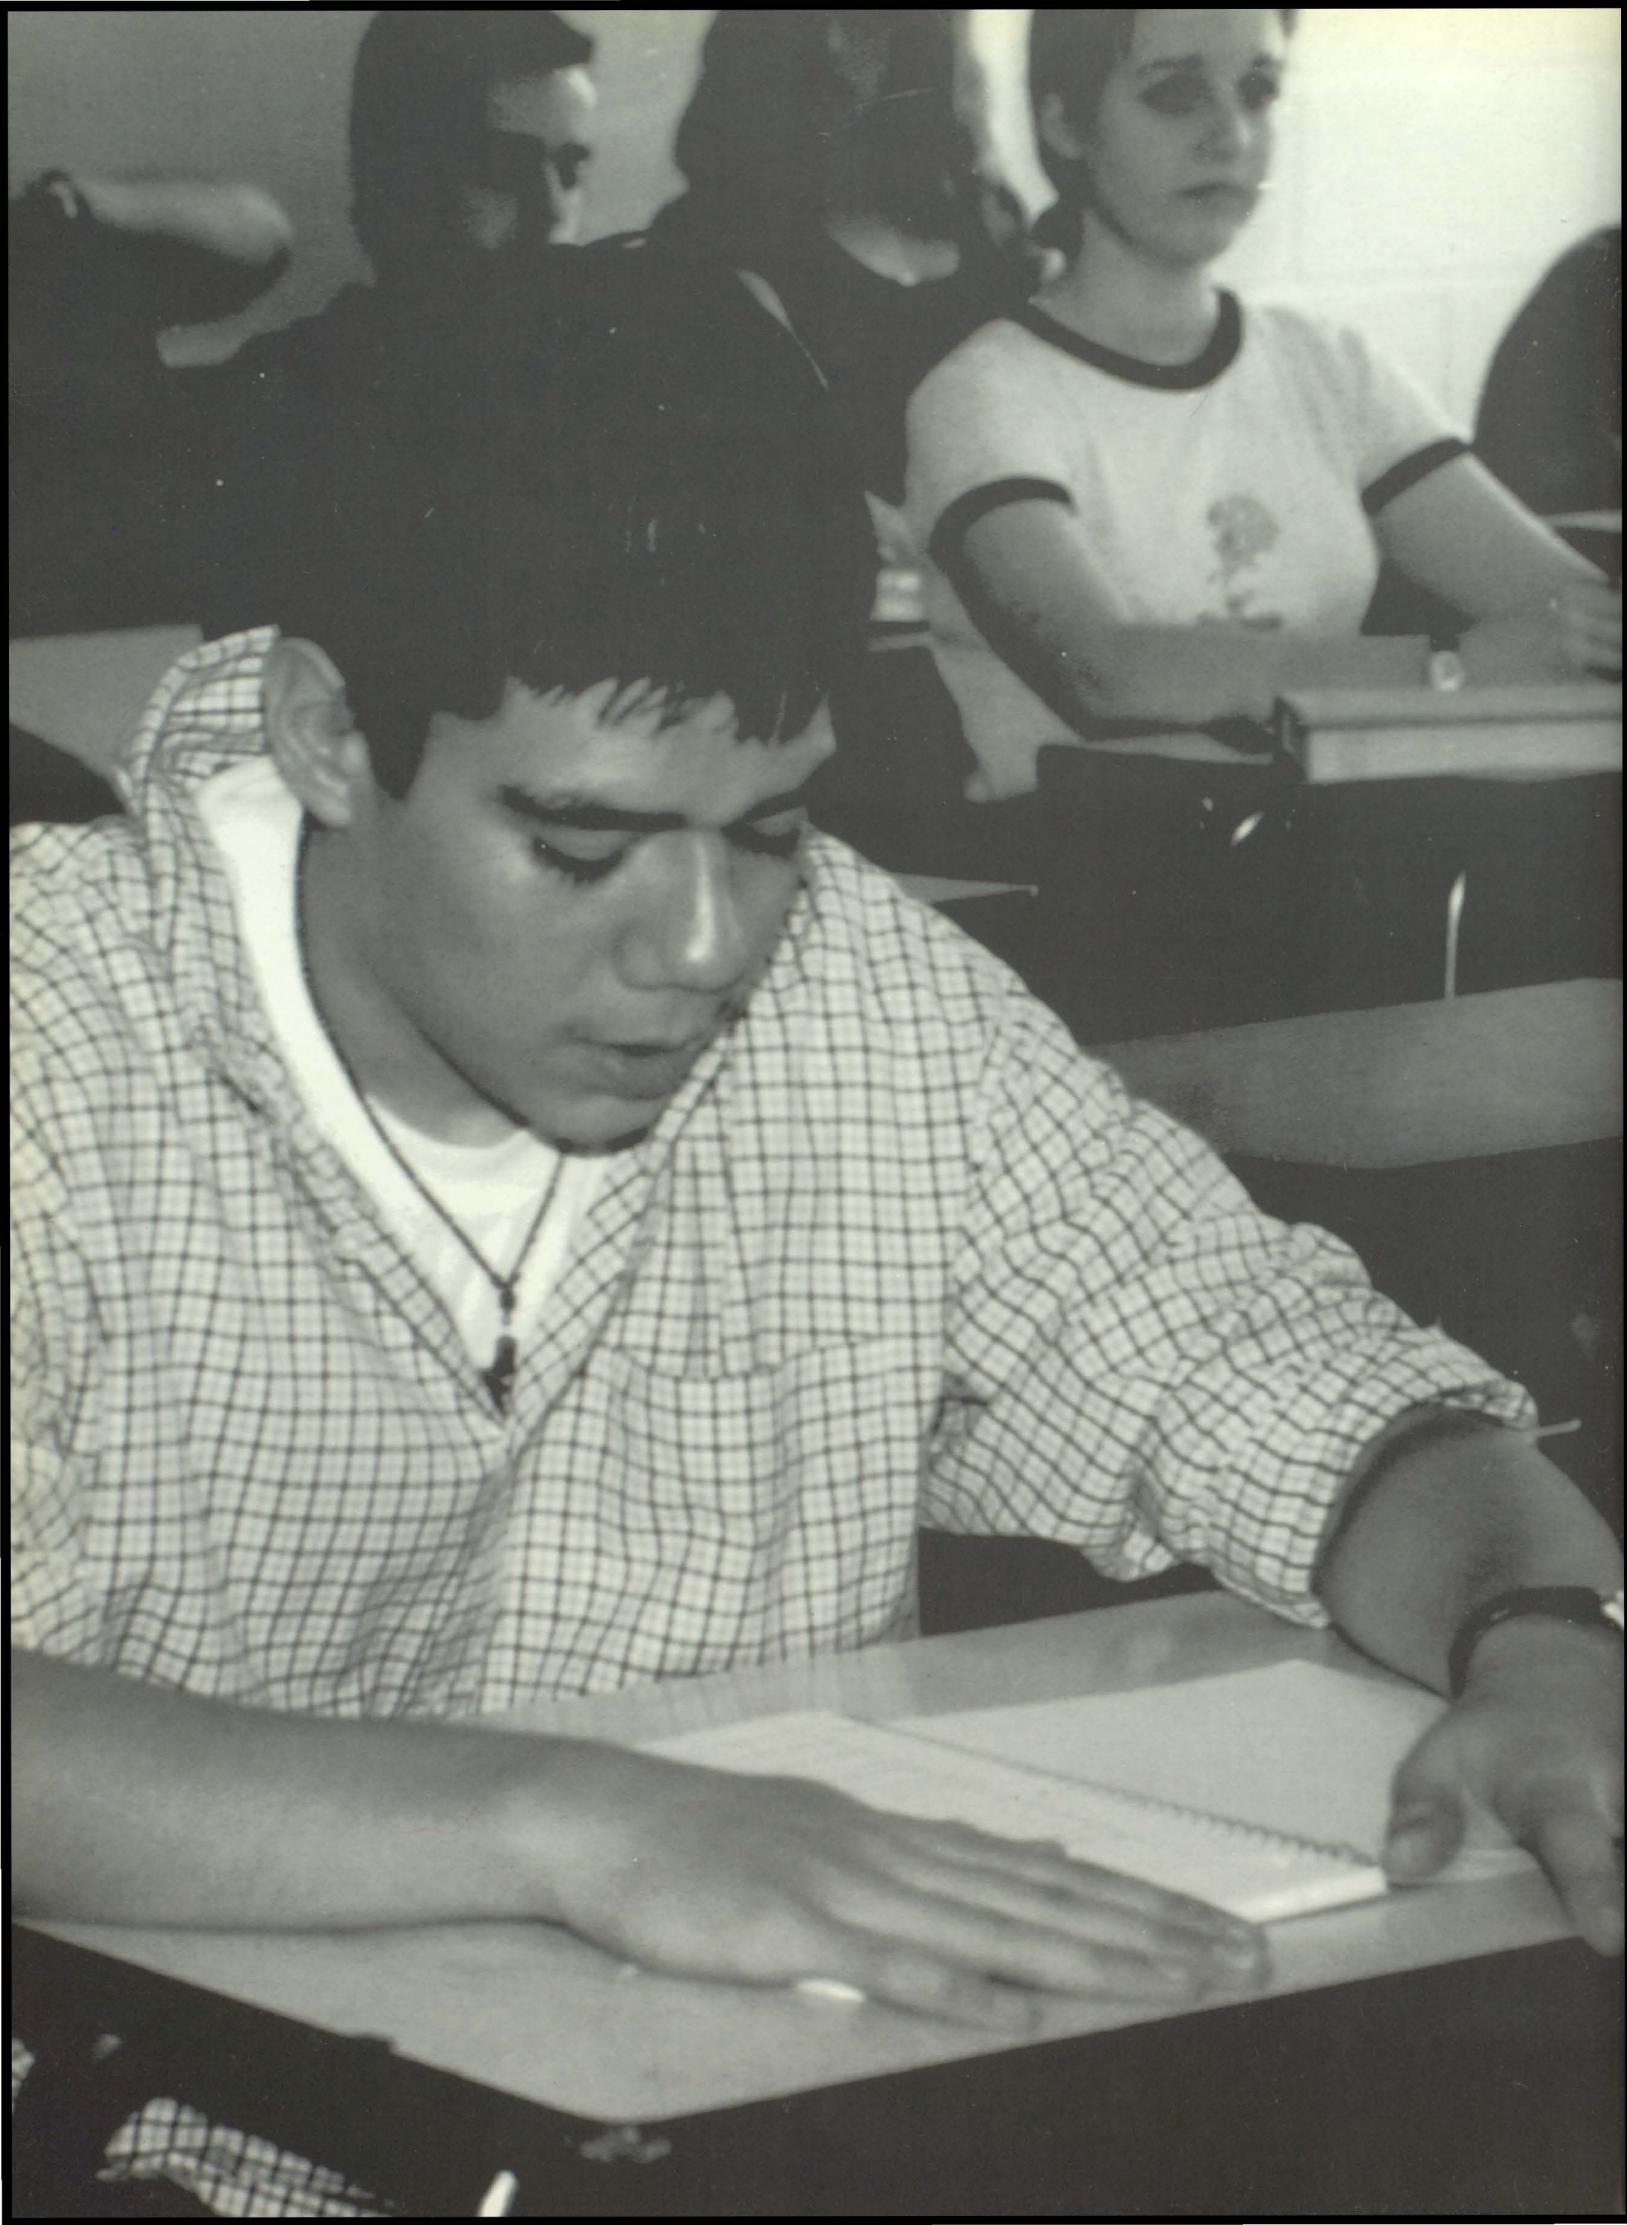

The DJ welcomed us and smiling faces filled the dance floor. Flashes filled the room from all the angles capturing those unforgettable moments.

Slowly the night came to an end with few couples left. Those left dancing to the final song knew "Our Hearts Will Go On" to our next special event.

### ADVISORS

Mrs. Maria Contardo  
Ms. Michelle Goldstein

As we first walked through the doors of East Side, we recognized that these were going to be the four longest years of our lives. Although that first day seemed like yesterday, we learned how to live like a big family: "The East Side Family". Now that these days are coming to an end we would like to thank the teachers who saw us mature into young adults.

The class of 1999 has had the pleasure of having the two "greatest" advisors: Mrs. Contardo and Ms. Goldstein. They have given most of their time and support to plan and manage our senior year activities. "THANK YOU" for being our support and guidance.

We would like to express our sincere thanks to Mrs. Figuerido for being there for us when we needed someone to organize our Junior Year Activities. THANK YOU!!!

# program

The Stem-Program was a thorough study of the energy output of East Side High School. The main focus of this study was to save energy by running the heating system more efficiently. The students came up with a number of ideas which could be implemented to achieve this goal, such as closing the windows when the heat is on, changing to more efficient light bulbs and turning off lights when no one is in the room.

Although this year's season was not a very successful one, the teams deserve a lot of credit. The players were reluctant to give up. They went into each game with an optimistic point of view, and played respectably. With each game they gained experience and knowledge which helped them improve both mentally and physically. Both teams consisted of a variety of players ranging from freshmen to seniors. All of the players were viewed as equals. They had their own share of input within the team and contributed to this year's accomplishments.

Even though our tennis team lost most of their top players last year, they put in a valiant effort. There were a lot of new members this year and we saw how hard they worked to try and make this a memorable season. The team showed they were committed to their effort and were great representatives of the East Side spirit.

Seniors: Jose Gutierrez, Bryon Davis,  
Yasin Webb, Bruno Almeida, Luis Muniz,  
Tony Da Silva, David Concepcion,  
Darwin Nicholas

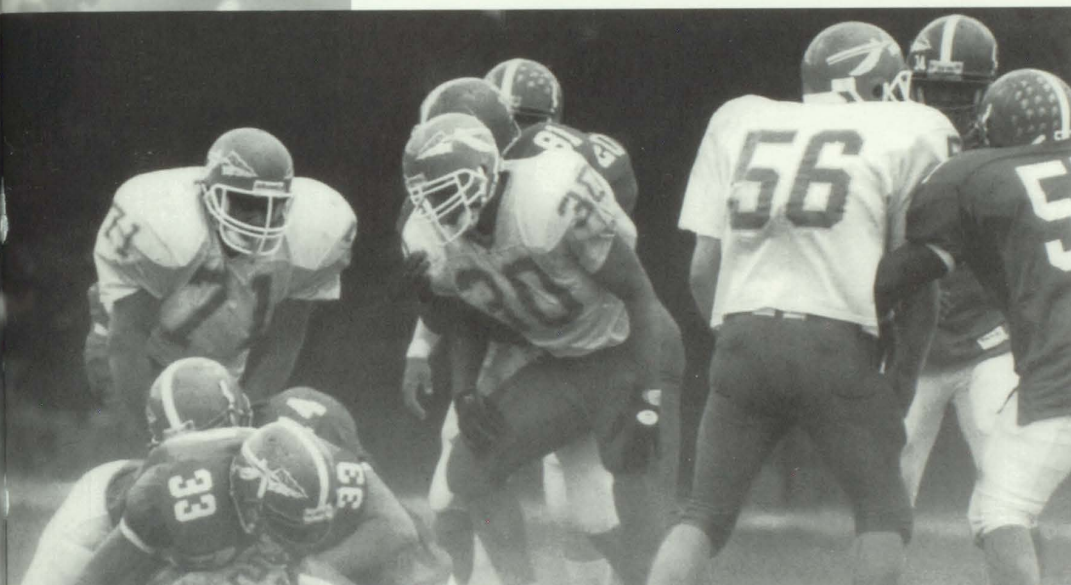

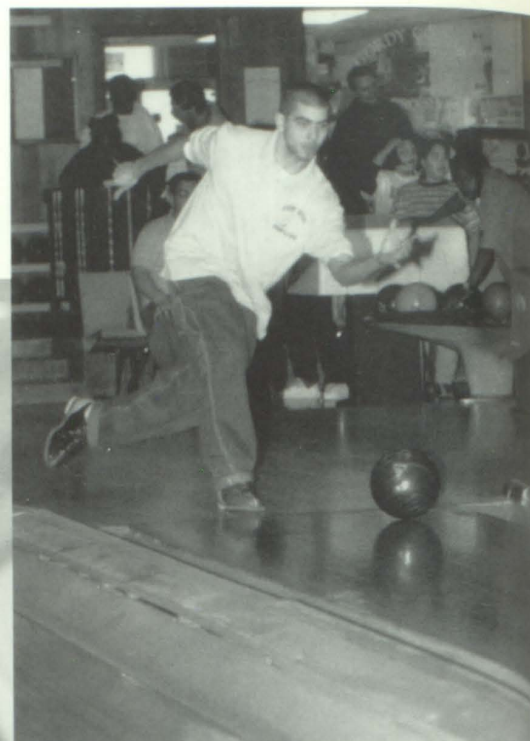

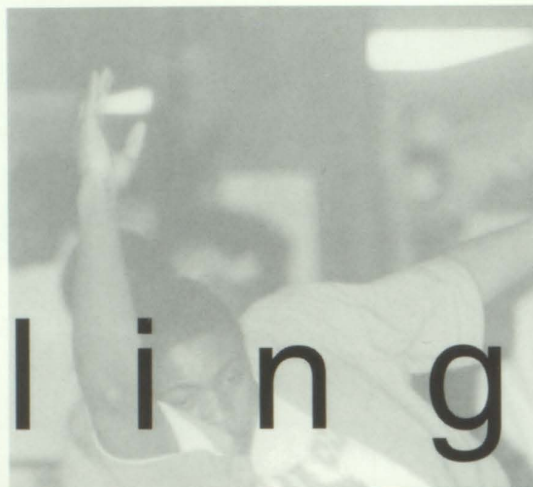

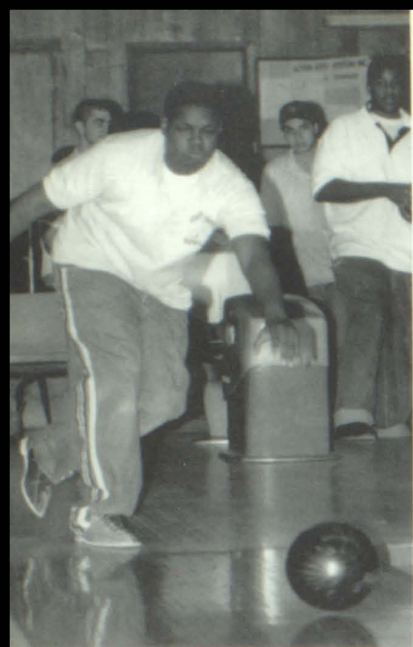

This season the football team earned the best record since 1988 of 5-5. They snapped an eighteen game losing streak with a victory over West Memorial on Sept.19, 1998. In just his second season coach Chris Ostrowsky was named coach of the year for Essex County. Acting as family and with a committed effort this years football team elevated their performance to new levels.

This year, the volleyball team did extremely well. Their commitment to hard work and the unity of the team reflected in their season. They accomplished many goals and in the same time had fun. They built a foundation to build upon for the underclassmen taking their place. They showed us that the hard work they put into this season paid off.

# Christmas Caroling

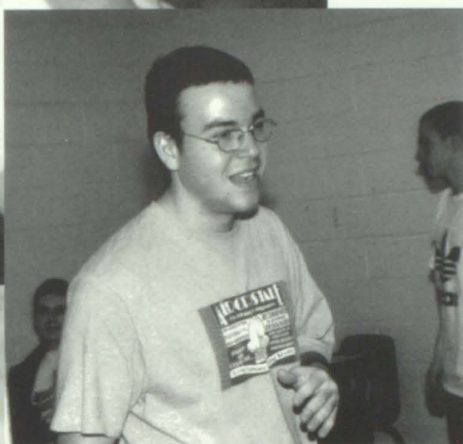

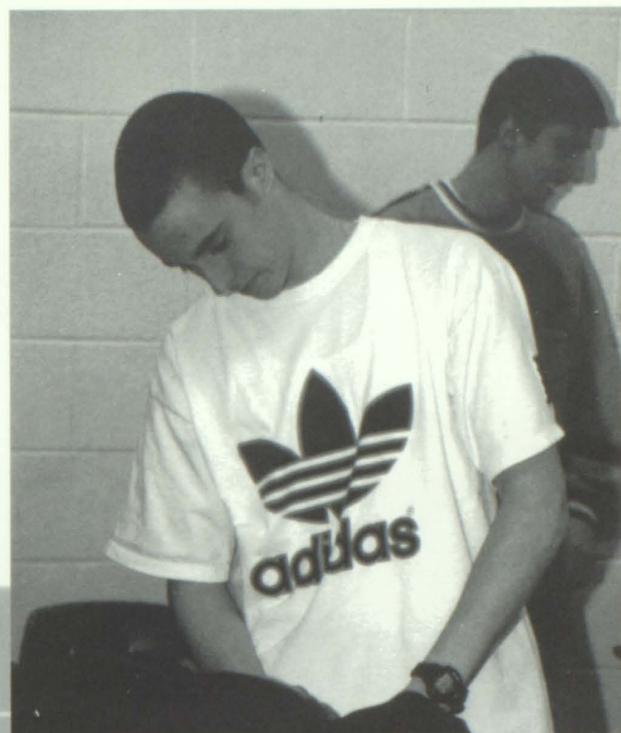

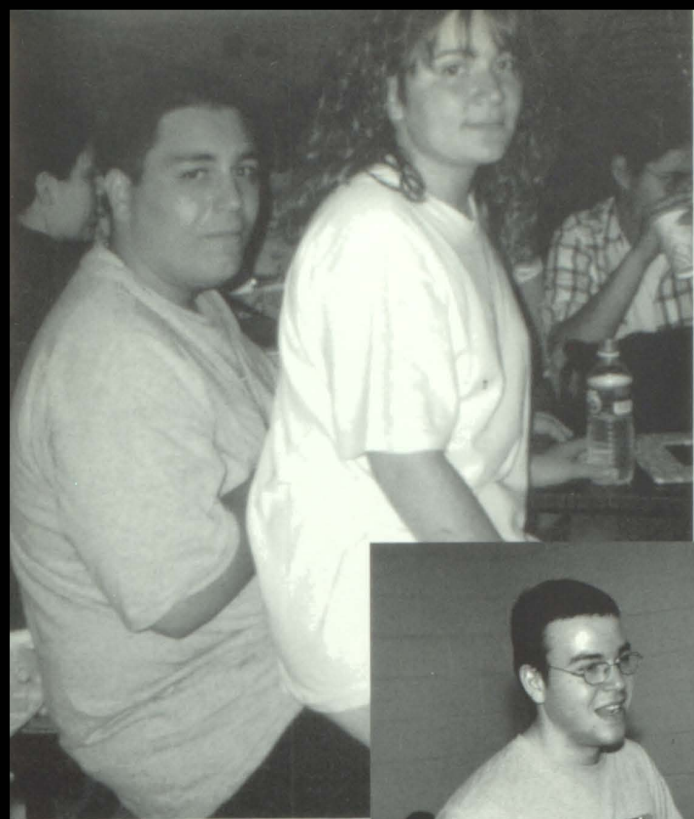

'Twas the season of gift giving, and that is exactly what our National Honor Society was involved in.

On December 16th, they went to St. James Hospital at 5:30 p.m. There they gave out Christmas cards to the patients. They also went caroling and gave stuffed animals to the younger patients.

The Honor Society would like to express their thanks to all the teachers who donated cards and stuffed animals.

## Friends

We see the same things as funny or absurd,  
and our tastes are the same in almost everything.  
We can talk for hours  
about things that are most important  
to us...  
We can talk for hours about nothing  
at all.  
We relate as equals.  
Competition does not exist between us;  
power is never important,  
but respect always is.

## Alma Mater

In the bustling city's bosom,  
Like a gem most rare,  
Shines the noblest of our treasures,  
Shines our High School fair.

In the field, the hall, the city,  
Loyal to thy name,  
Be it ever our endeavor,  
far to spread thy fame.

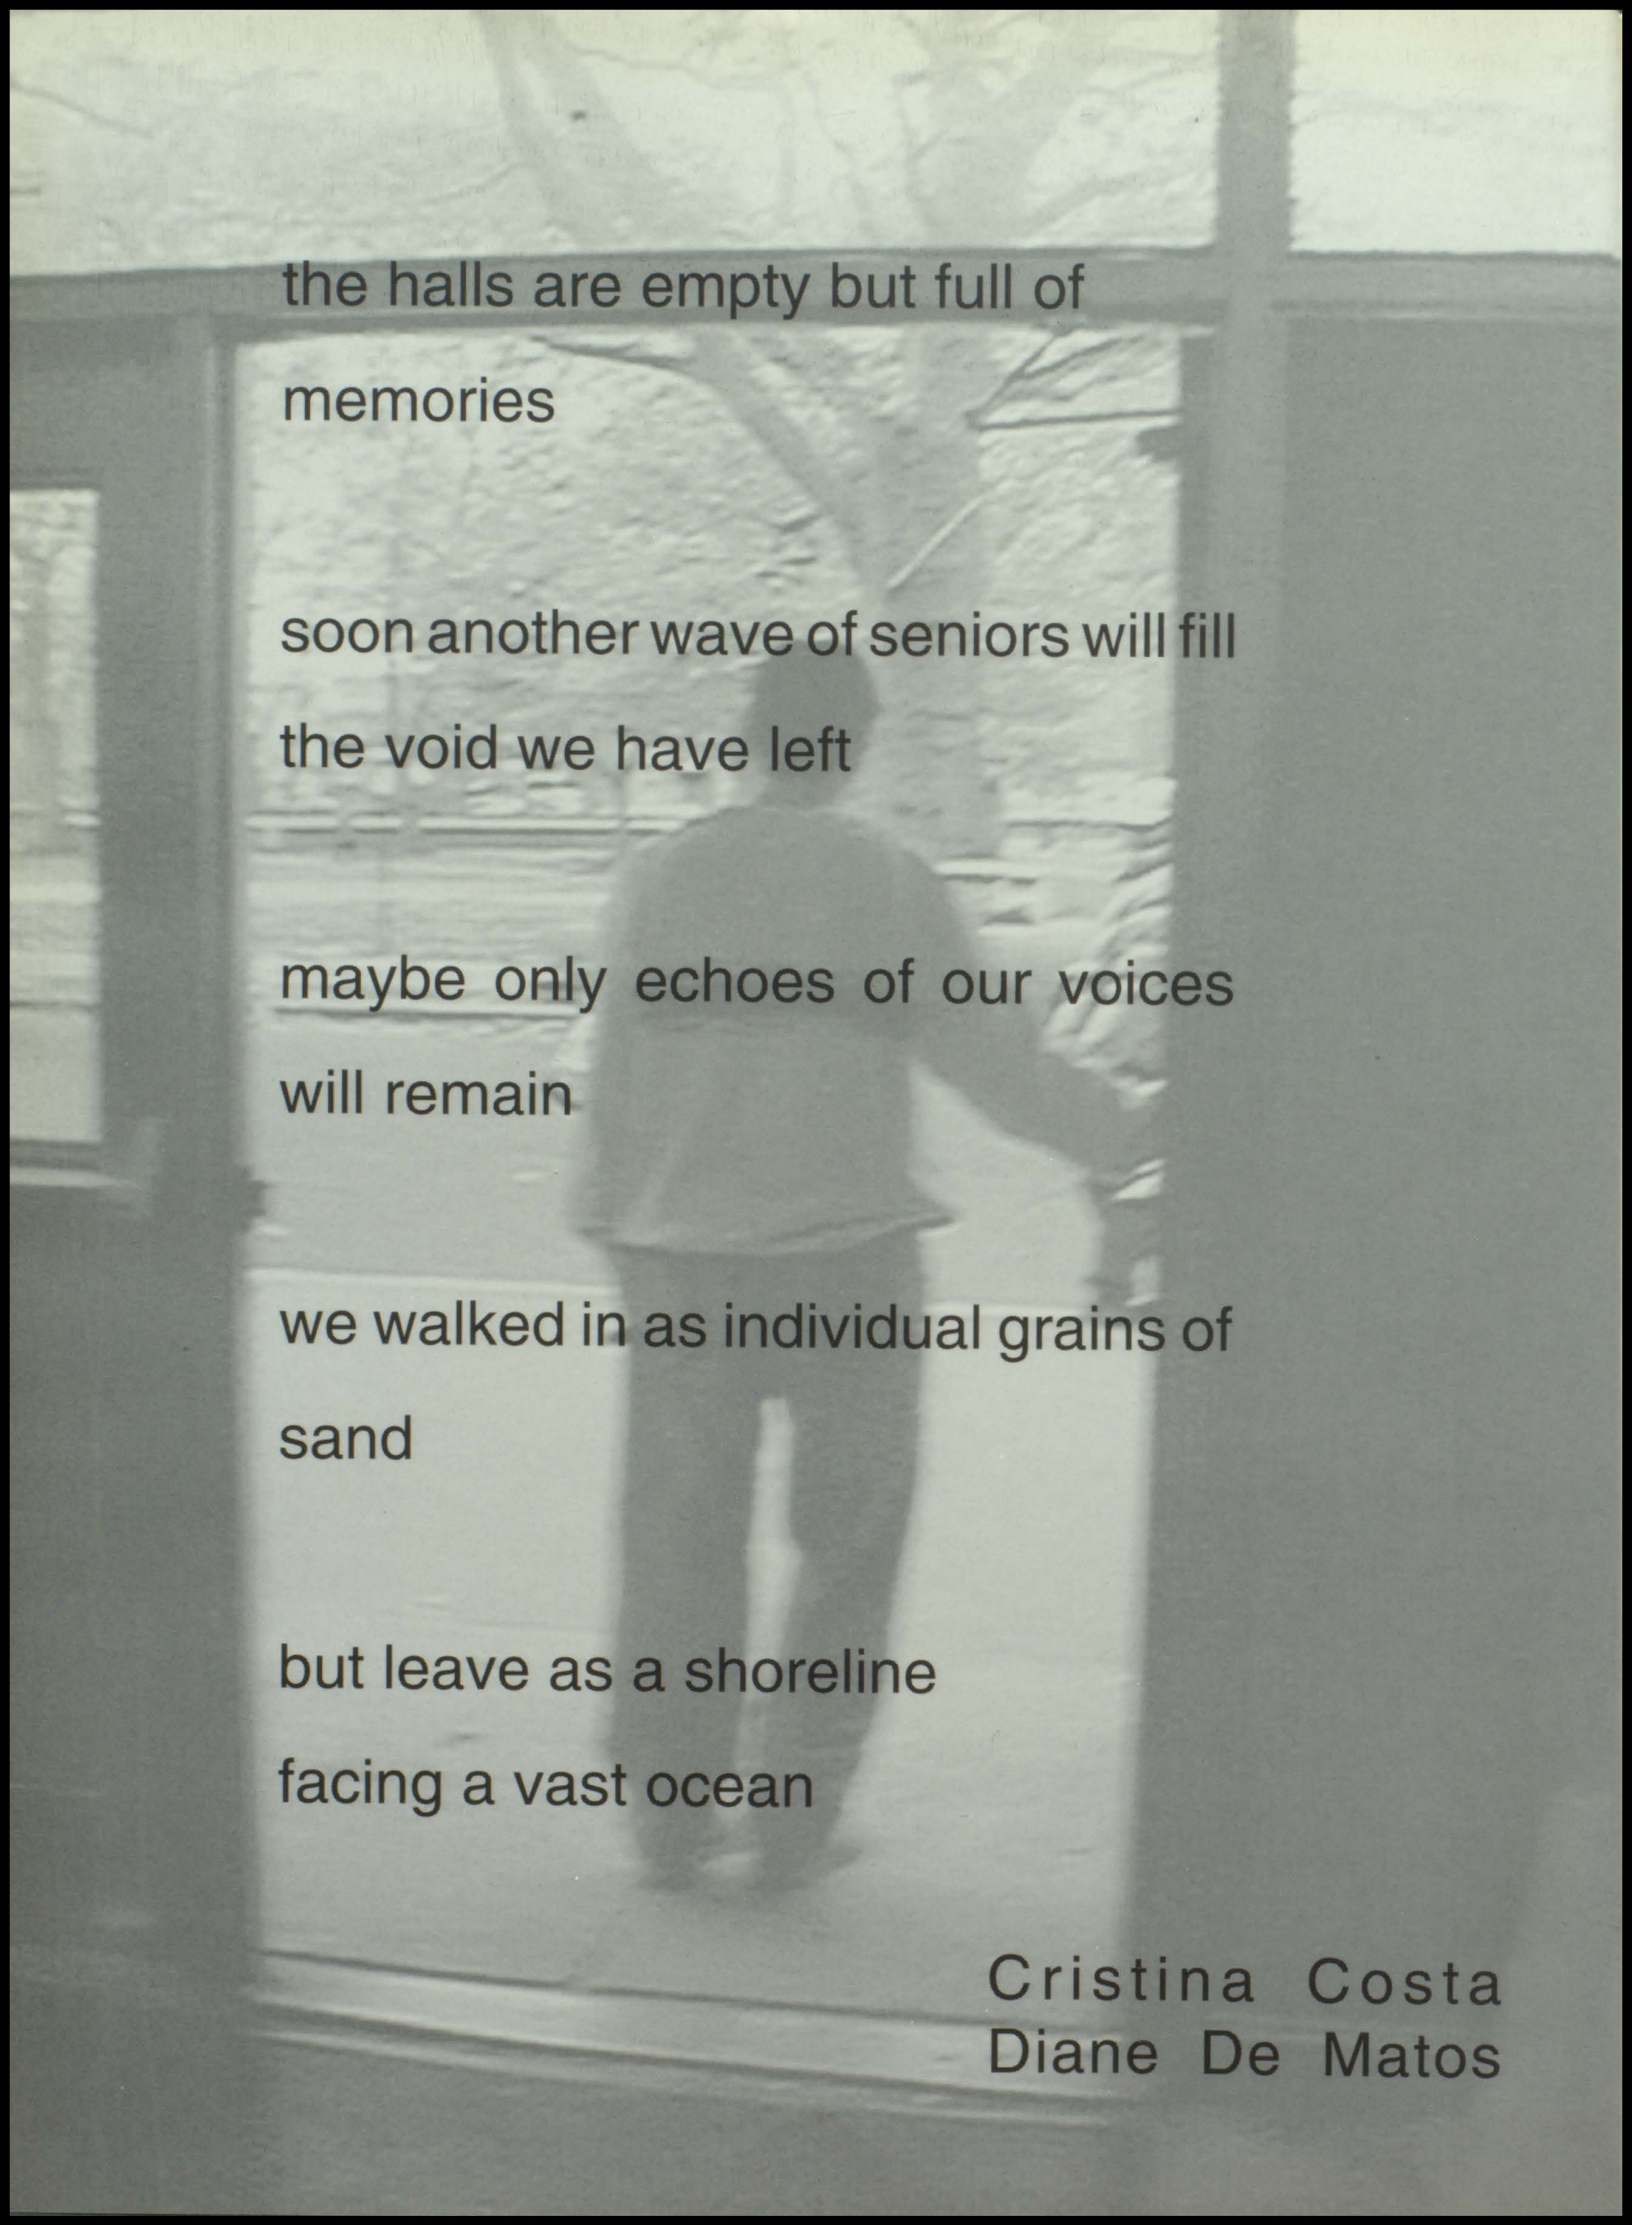

Then unite in loyal praises,  
Ere the glad days run,  
In the world are many high schools,  
In our hearts but ONE.

## *Chorus*

Hail, all hail, dear East Side High School  
Green thy memory be;

By the bond of happy hours  
Are we bound to thee.

A person is walking away from the camera on a sandy beach. The person is wearing a light-colored long-sleeved shirt and dark pants. The background shows the ocean with waves breaking. The sky is overcast. The text is overlaid on the image.

the halls are empty but full of  
memories

soon another wave of seniors will fill  
the void we have left

maybe only echoes of our voices  
will remain

we walked in as individual grains of  
sand

but leave as a shoreline  
facing a vast ocean
